4:15 pm

Announcements

-Program Review: Oct. 29-31, 2017. As a department, we will prepare a self-study in anticipation of external evaluation.

-Bruno: What is faculty role in this evaluation? Graduate school will schedule meetings with various groups: students, faculty, administrators. Departmental self-study. Meetings between reviewers and upper level administrators. Finally, a report for suggestions from reviewers.

-SUBMIT ANNUAL REPORTS POST HASTE! MAY 12 IS THE REAL DEADLINE. It's definitely probably before the 15th. Send community project reports to Federico by May 10. Data-driven community project reports are especially important to higher administration.

-Commencement: Saturday, May 13, 2pm, Genome Science G100.

-New Larry D. King Post-graduate Fellowship for a graduating senior to live and work part-time in Seville, Spain. \$4k from department + 600 Euros/ month.

-New budget model that allocates state money directly to the College, not the University. In theory, this means more money for the College, based on credit hours provided. We appear to be a massive revenue generator for the College based on a byzantine 12-point system of evaluation, so let's hope to receive a bit more back from the College.

-Grace and Illuminada are moving on at the end of the semester! Thank you for your many years of service and dedication!

-Congrats and good luck to Sam Amago, new chair for a term of 5 years.
