

PROCESSES AND PATHWAYS FOR COURSE AND CURRICULAR PROPOSALS IN ROMS

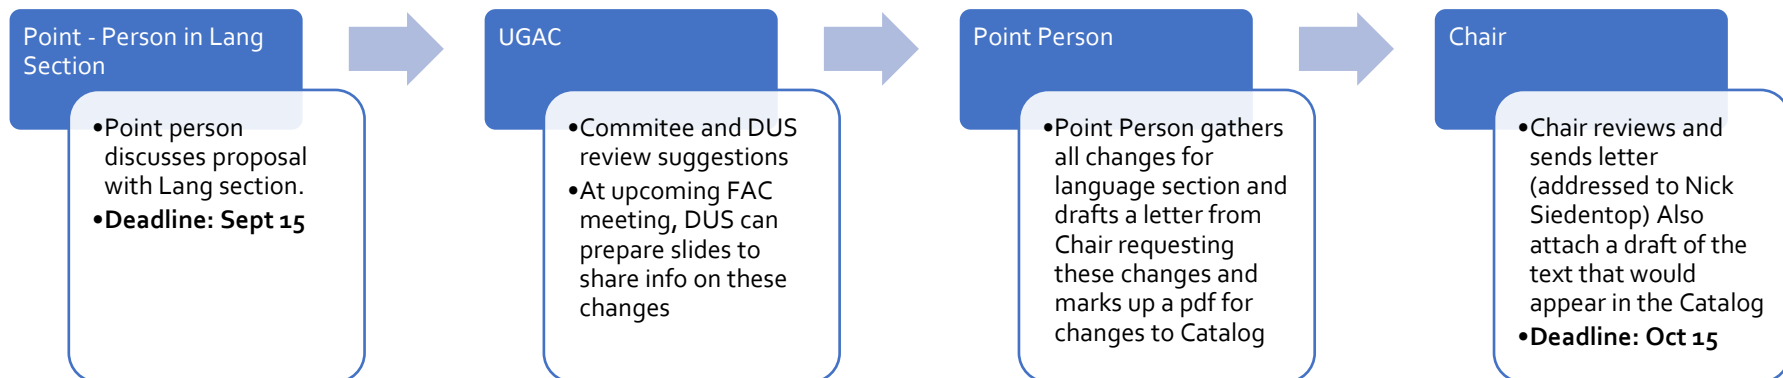

I. New Courses and/or Requests that Existing Courses be aligned with Different Gen Eds [Exception for 19/20 when process is different for IDEAs]

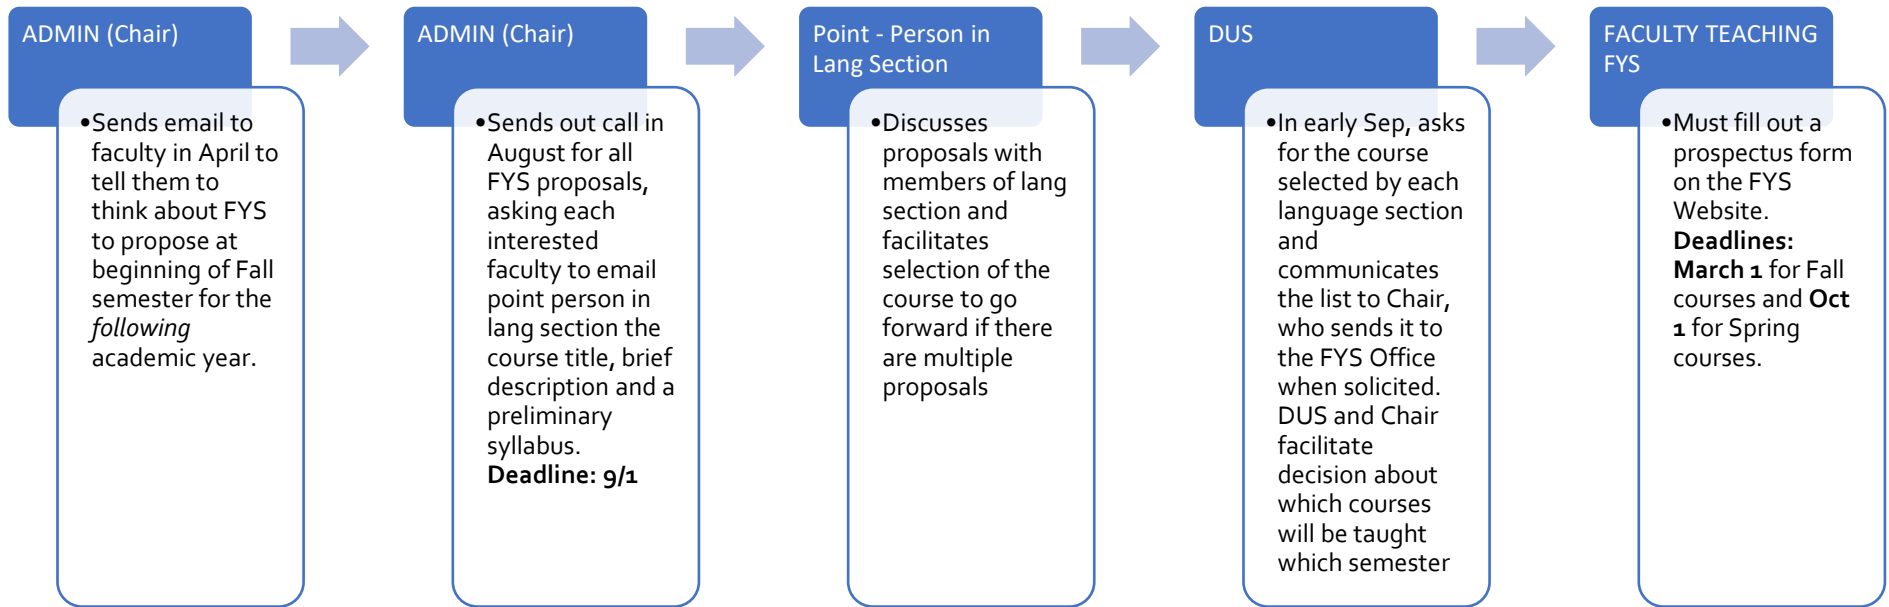

II. Minor Revisions to Courses [i.e. changes to titles; numbers] *Note: CIM can also be used to inactivate courses that are no longer taught.

III. Changes to Curricula [new requirements for major/minor, including revisions to course lists that satisfy these requirements]

IV. Proposals for FYS

*Note: The Review and Selection of the FYS is ultimately made by the Chair, not the DUS or UGAC. We are simply facilitating the process.
